PAIR DISCUSSION

Imagine that you have been offered a full-time job. You would have to start as soon as you finish your current school (after your exams). The job is 40 hours per week, plus paid overtime. The pay is double the average and it is a steady job, but it's not exciting and there is not much chance of career progression. With a friend, discuss the pros and cons. Would you take the job? Why or why not?

PERSONAL QUESTIONS

- What are your priorities in life?
- What are your ambitions? What do you want to do, to be, to achieve?
- Do you have a "bucket list" of things you want to see or do during your life? Which things are on it or what would you put there?

PICTURE PROMPTS

Look at the pictures on the other side of the card. Choose one and describe the person. What do you think are their priorities in life? What makes this person happy? Would you like this person?

Now compare and contrast the two pictures. Talk about the people you see and the ways they are similar to and different from each other.
